BIL111 - Programming
Lab 4: Definite Loops

In this lab, you will write three programs for the following problems.

Problem 1: Sequence of numbers   Write a C program that produces this sequence of numbers using a for loop:

```
8
11
14
17
20
23
```

Problem 2: Print Stars   Write a C program that produces this sequence of stars using for loops:

```
********
**********
*************
****************
*******************
**********************
```

Problem 3: Print Design   Write a C program that produces this output using a for loops:

```
-----1-----
----333----
---55555---
```

```
--7777777--
-999999999-
```
